通關徵稅

Trade Facilitation and Revenue Collection

海關依據關稅法、關稅法施行細則及海關進口稅則等，對進入國境之貨物以從價、從量或關稅配額方式課徵關稅。

海關自84年起實施海空運貨物通關全面自動化，並持續配合高科技、零庫存、即時物流配送、全球運籌等經貿型態的轉變，推動關務革新，簡化通關作業，建立無障礙通關環境。

海關於98至104年導入WCO SAFE架構，完成新世代通關系統架構-優質經貿網絡計畫（關港貿單一窗口、預報貨物資訊、優質企業認證及管理機制、貨物移動安全及查驗技術現代化等5項子計畫），近年來持續加強簡化及整合流程，並推出一系列無紙化措施，打造通關便捷之數位化海關。

Customs levies duty, on ad valorem, specific or tariff quota basis, on goods imported into the territory of the Republic of China (Taiwan) in accordance with the Customs Act, Enforcement Rules Governing the Implementation of the Customs Act, Customs Import Tariff and other regulations concerned.

Customs has fully automated its sea/air cargo clearance systems since 1995. In line with the current business trend featuring high-tech, zero-inventory, just-in-time distribution and global logistics, Customs continuously step up efforts to proceed with a series of modernization initiatives to create a barrier-free clearance environment.

Between 2009 and 2015, Customs implemented the WCO SAFE framework and established the framework of new-generation customs clearance system - the five sub-projects under the Ubiquitous Economy and Trade Network Plan, including the Customs-Port-Trade (CPT) Single Window System Project, Advance Cargo Information Project, Authorized Economic Operator (AEO) Certification & Management Project, Cargo Movement Security Project, and Inspection Instrument Modernization Project. In recent years, Customs has spared no efforts to further simplify and integrate customs procedures and promote a series of paperless operations, so as to create a facilitated, digitalized customs clearance environment.

106年各關關稅收入

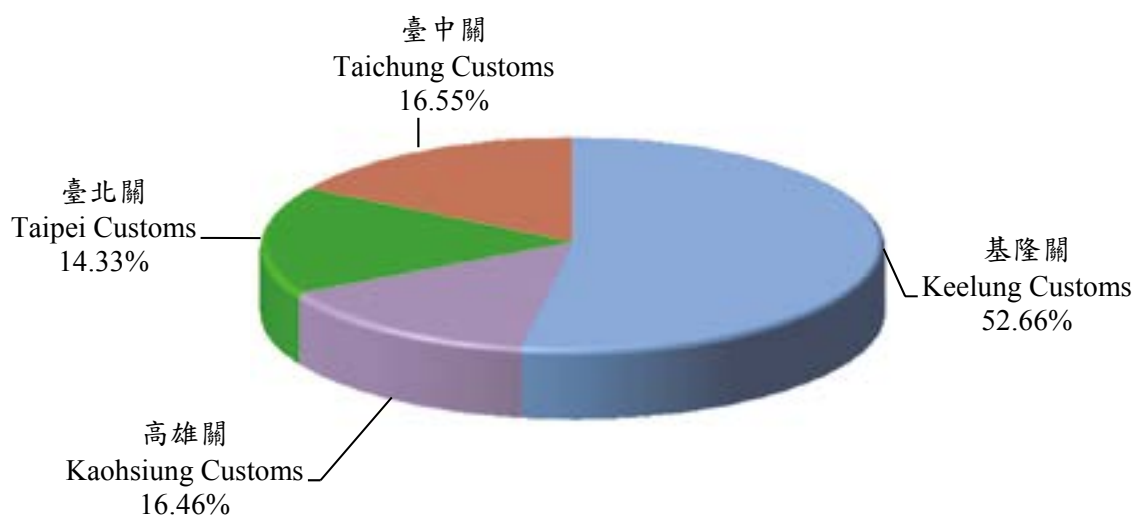

Analysis of Customs Duty Collection by District for 2017

海關所徵關稅，主要來自海運進口貨物，四關中以基隆關徵收最多，臺中關居次，係因自基隆港進口之貨物，多屬稅率較高之消費品，而自臺中港進口者，則多為高級轎車等車輛。

The levies on goods imported by sea are the major source of the duty collected by Customs. Among the four Customs, Keelung Customs maintains its leading position in duty collection, while Taichung Customs ranks second. Most of the goods imported into the Port of Keelung are consumer goods subject to higher tariff rates, while those imported into the Port of Taichung are mostly luxury cars and other vehicles.

邊境查緝

Border Enforcement

海關執行邊境管制，查緝範圍，包括中華民國通商口岸及依海關緝私條例或其他法律得為查緝之區域或場所。為保障國家安全、維持社會安寧、穩定經濟秩序、維護國民健康及保護生態環境，海關採行風險管理機制，針對高危險群廠商、報關業、運輸業、倉儲業、快遞業、旅客加強查察。並對毒品、槍械、高稅率、管制、保育類及侵害智慧財產權貨品等實施重點查緝，落實執行洗錢防制政策及行政院106年5月提出之「新世代反毒策略」。此外，並透過國際關務合作，共同打擊不法及關務詐欺。

為使貨暢其流，通關安全無虞，充分運用進出口報單篩選、情資通報、大數據分析技術及各類風險管理資料庫等系統，並輔以巡緝艇、巡邏車、平板電腦、X光檢查儀器及緝毒犬、緝菸犬、偵爆犬等查緝工具，準確鎖定高危險群旅客及貨物，提升合法旅客及貨物的便捷通關服務。

Customs border enforcement is undertaken within the perimeter of all commercial ports of the Republic of China opened to foreign trade and of other territories or places where inspection, search and seizure are authorized by the Customs Anti-smuggling Act or other laws and regulations. With aims of safeguarding national security, ensuring social peace, stabilizing economic orders, maintaining civilian health and protecting the environment, Customs applies risk management techniques to target high-risk companies, customs brokers, shipping companies, warehouses, express carriers and passengers for strict surveillance and inspection. Public security threatening goods, duty evasion commodities, controlled items, endangered species and their products as well as intellectual property rights (IPR) violating articles are also top priorities for interdiction. Customs implemented Anti-money Laundering Policy and “New Generation Anti-Drug Strategy” issued by the Executive Yuan in May 2017. Moreover, through the cooperation with enforcement agencies from other countries, Taiwan Customs succeeds in jointly fighting against illicit activities and customs fraud.

To facilitate cargo clearance and ensure cargo security, electronic systems including Profiling and Targeting System, Intelligence Reporting System, Big Data Analysis, Risk Management Database System are adopted by Customs. In order to uplift its enforcement effectiveness as well, Customs has spared no effort in modernizing its preventive equipment and practices such as Customs preventive boats, patrol cars, tablet computers, X-ray instruments and drug detector dogs, tobacco detector dogs, explosive detector dogs, so as to effectively locate high risk cargoes and passengers while speeding up clearance for legitimate passengers and cargoes.

106年緝私案件分析

Analysis of Seizure Cases for 2017

依照海關緝私條例規定，海關、軍警及海岸巡防署等機關，如查獲私運貨物出入國境，均由海關處理。

106年查獲之私貨中，進口以毒品、金銀貨幣、菸類等私貨價值居高，走私方式進口以虛報矇混、旅客行李夾帶、船舶私運、郵包走私等為主。出口則以旅客行李夾帶、虛報案件、郵包走私為主。

在毒品方面，106年度緝獲毛重4,438.8公斤（585案），種類以一粒眠1,798.5公斤為主，麻黃鹼類及鹽酸羥亞胺等毒品先驅原料1,616.2公斤居次。因應106年6月菸稅稅率調漲，海關加強查緝菸品，106年緝獲1,112.1萬包私菸創歷年新高。

為落實保護智慧財產權，106年海關查獲涉嫌侵害商標權233案（251,847件）。

Pursuant to the Customs Anti-smuggling Act, smuggled goods seized by Customs and other government agencies such as the military, the police and coast guards shall be processed by Customs.

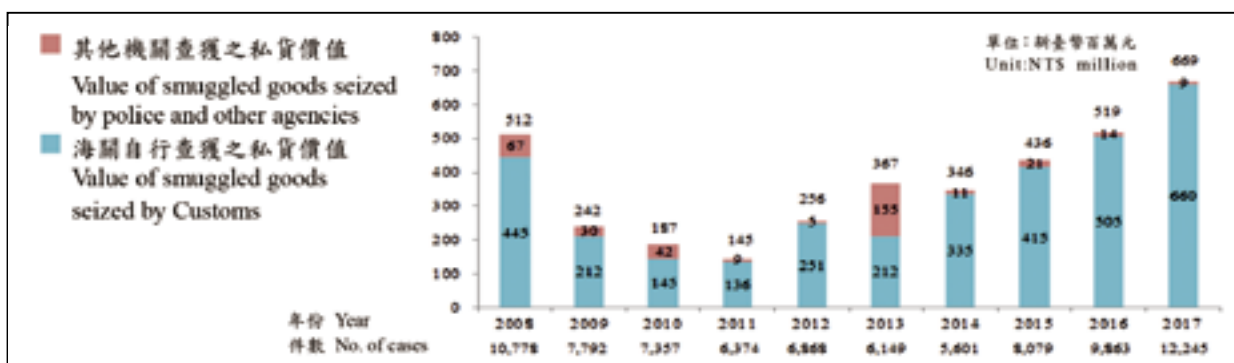

Among the seizures of 2017, narcotic drugs, bullion, currency and tobacco were in majority of smuggled items with higher value. When it comes to modus operandi, false declaration, concealment in passenger's luggage, ship cargo and postal parcels were most commonly seen among inbound smuggling cases; whereas for outbound cases, concealment in passenger's luggage, false declaration and postal parcels were tactics often used by smugglers.

As for narcotics, Customs seized 585 cases (G.W. 4,438.8 kilograms) in 2017, which were mostly erimin (G.W. 1,798.5 kilograms). Precursor materials including ephedrine and hydroxylamine hydrochloride (G.W. 1,616.2 kilograms) were the second. Due to the increase of Tobacco Tax rates since June 2017, Customs strived to combat illicit tobacco smuggling and seized 11.12 million packs of cigarettes in 2017, which hit the record high.

Emphasis was also placed on border enforcement of IPR. In terms of import, Customs found 233 trademark right infringement cases (251,847 articles) in 2017.

Kaohsiung Customs intercepted approximately 11,095 cartons of smuggled cigarettes, with a market value of around NT\$ 267 million on October 12, 2017.

貨物查驗、稅則分類與關稅估價

Cargo Examination, Tariff Classification and Customs Valuation

貨物查驗、稅則分類及關稅估價為海關徵稅之核心業務，極具專業性。

貨物查驗及貨品認定，一方面作為稅則分類及估價之認定基礎；另一方面藉查驗遏止逃漏稅費並執行貿易管制。

稅則號別係依據「海關進口稅則」歸列。為與國際接軌，海關已根據世界關務組織（WCO）國際商品統一分類制度（HS）2017年版修正我國海關進口稅則，並於106年1月1日起實施。

進口貨物完稅價格為核課關稅及編製貿易統計之基礎。我國為WTO會員國，海關核估進口價格均依據WTO關稅估價協定辦理。此外，海關已建置價格資料庫，以加速通關及確保國課。

Cargo examination, tariff classification and Customs valuation are the core issues for Customs duty collection, which require professional skills to perform.

An examination is a method for goods identification. On one hand, Customs conduct examinations as the basis for tariff classification and valuation. On the other hand, through examination, Customs can deter duty evasion and ensure import/export control.

Tariff codes are classified depending on “Customs Import Tariff”. To be geared to international standards, Customs has revised its tariff schedule, according to the Harmonized Commodity Description and Coding System (HS) 2017 version, recommended by World Customs Organization (WCO). The revised Customs Import Tariff went into effect on January 1, 2017.

The Customs value of imported goods is the basis for calculating import duties and compiling trade statistics data. As a member of WTO, Taiwan Customs appraises the value of imported goods in line with the WTO Agreement on Customs Valuation. In addition, Customs has established a valuation database to expedite the clearance procedure of imported goods and secure government revenues.

106年稅則預核、事後稽核與查價案件統計

Statistics of Advance Tariff Ruling, Post-Clearance Audit and Customs Value Investigation for 2017

為協助正確申報稅則號別，海關實施「稅則預先審核制度」免費諮詢服務，商民於貨物進口前，得向海關申請預先審核稅則號別。該制度係雙贏策略，除方便商民估計成本外，更可減少徵納雙方稅則爭議。106年度申請案件達1,980件。

依據「海關事後稽核實施辦法」規定，海關對於可疑之進出口案件得於放行後實施事後稽核，並於稽核時宣導政令及行政指導。106年度事後稽核案件298件，補稅及罰鍰金額約新臺幣2億5,600萬元。

對於進口報單涉及申報不符或交易價格顯屬異常案件，海關得依納稅義務人申請先行押放，並辦理查價。106年度查價結案數25,275件，補稅金額約新臺幣13億7,323萬元。

For correct declaration of tariff code, Customs set up the Advance Tariff Ruling (ATR) System, to provide a free consulting service on tariff nomenclature prior to importation. The ATR system is a win-win strategy, as not only can it allow importers to estimate their costs, but it also decreases disputes between importers and Customs. The application for ATR reached up to 1,980 cases in 2017.

Pursuant to Regulations Governing the Implementation of Post-Clearance Audit, Customs may conduct post-clearance audit (PCA) on suspected import/export cases after the release of goods. When conducting PCA, Customs also informs traders about government policies and administrative instructions. In 2017, Customs conducted 298 PCA cases, which resulted in the imposition of NT \$256 million of duties and fines.

For import cases in which there are discrepancies in declaration or where the transaction value is obviously abnormal, Customs may, at the request of the duty-payer, release the goods on security deposit, and then proceed with relevant investigation afterward. In 2017, Customs investigated 25,275 import cases, and recovered NT\$ 1.373 billion of evaded duties.

保稅

Bonding System

保稅業務係辦理保稅工廠、加工出口區、科學園區、農業科技園區、保稅倉庫、免稅商店、離島免稅購物商店、物流中心及自由貿易港區等保稅區之進出口貨物通關及監管工作。貨物進入保稅區不必繳稅，於加工出口後再予核銷，或於提領出廠（倉）進口時繳稅，以減輕業者生產成本，提升競爭力。

Bonding system refers to special arrangements regarding customs control and clearance of imported/exported goods stored in bonded areas, including Bonded Factories, Export Processing Zones, Science Parks, Agricultural Biotechnology Parks, Bonded Warehouses, Duty-free Shops, Offshore Island Duty-free Shops, Logistics Centers, Free Trade Zones, etc. Under such arrangements, firms are allowed to store cargoes in those registered bonded areas without paying duties. Instead, the duties are recorded and subsequently written off at exportation of the finished products, or are paid when goods are withdrawn for importation. Bonding system saves tremendous amount of production cost for importers/exporters and in turn, enhance the overall competitiveness of the economy.

退稅

Duty Drawback System

退稅制度乃政府為拓展對外貿易、鼓勵外銷之措施，凡外銷品使用進口原料稅，得於成品出口後依各種外銷品產製正常情況所需數量之原料核退標準退還（退稅）或沖銷（沖稅）。此一制度在我國過去50多年經濟發展過程中，有不可磨滅的貢獻。

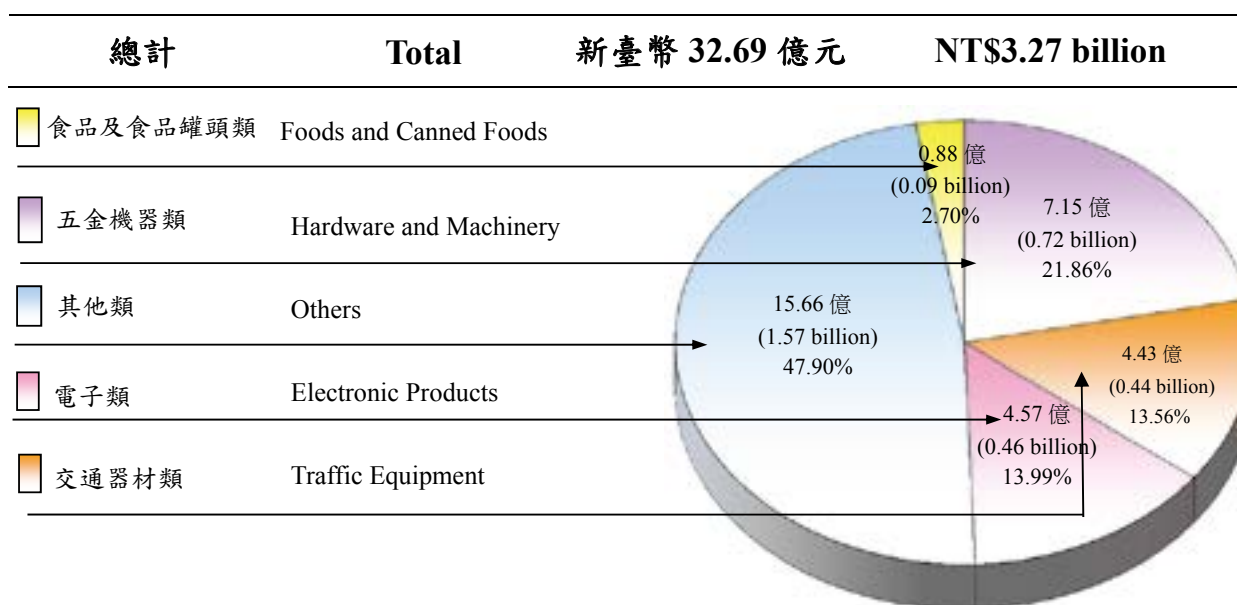

海關建置外銷品沖退原料稅電子化作業系統，提供退稅廠商更優質便捷服務及提升作業效率。

Duty drawback system has been introduced by the government to promote exportation of products manufactured from imported materials. Under this system, import duties and taxes levied on these materials may be refunded or offset following exportation of the finished products according to the standards for the raw materials in the quantity required for normal production. This system has played an important role in our nation's economic development over the past fifty-odd years.

To improve the service quality and enhance administrative effectiveness, Customs has implemented the system on Electronic Processing of the Offsetting or Refund of Duties and Taxes on Raw Materials for Export Products.

特別關稅

Special Customs Duty

關稅除具一般財政功能外，尚能藉由特別關稅之課徵，發揮關稅經濟功能，期使國際貿易處於公平競爭狀態及提供國內產業合理經營環境。我國關稅法所列之特別關稅計有平衡稅、反傾銷稅、報復關稅、進口救濟措施或額外關稅等。

進口貨物因領受財物補助或其他形式之補貼，致損害我國產業者，除徵收關稅外，得另徵平衡稅；進口貨物以低於同類貨物之正常價格輸入，致損害我國產業者，除徵收關稅外，得另徵反傾銷稅。我國出口至他國之貨物，遭受他國差別待遇者，我國對該國出口運入我國之貨物，除徵收關稅外，得另徵報復關稅。

另為因應國內或國際經濟特殊情況，得對進口貨物關稅稅率於一定期間及幅度內予以增減。又依貿易法採取進口救濟或依國際協定採取特別防衛措施者，得分別對特定進口貨物提高關稅、設定關稅配額或徵收額外關稅。

Apart from regular financial functions of Customs duty, its economic functions can be fulfilled as well by levying special Customs duty, with which a fair environment is expected to be created for international trade and domestic business operations. The special Customs duties stipulated in Customs Act include countervailing duty, antidumping duty, retaliatory duty, import relief measure or additional duties, etc.

Imported goods that have been granted with a financial subsidy or any other form of allowance, thereby causing injury to any industry in the Republic of China, may, in addition to the Customs duty, be subject to the imposition of countervailing duty. Imported goods that are found to have been dumped at a price less than the normal value of its like product, thereby causing injury to any industry in the Republic of China, may be subject to the imposition of antidumping duty in addition to the Customs duty. When goods exported from the Republic of China are treated discriminatorily by the importing country, the imposition of retaliatory duty may, in addition to the Customs duty, be levied on the imported goods shipped from that country to the Republic of China.

To cope with special economic situations domestically or internationally, Customs duty rates may be adjusted temporarily in a limited range during a specific period of time. Besides, where import relief and special safeguard measures are adopted in accordance with Foreign Trade Act and international agreements respectively, an increase in duty rate, a set of tariff quota or a levy on additional duties may be exercised on specified imported good.

資訊處理

Information Management

海關配合政府電子化政策，自84年起，全面實施海空運貨物通關自動化作業，大幅改善通關速度及品質。91年起，配合政府「挑戰2008：國家發展重點計畫」，推動海關資訊業務再造，建置通關電子閘門、網際網路線上作業、網際網路稅費繳納、海空運異地備援、行動通關等電腦系統，除加速貨物通關時效外，並提供多元、便捷、全年無休之優質通關服務環境。

98年起，配合政府推動「優質經貿網絡」計畫，分別於102年及104年完成關港貿單一窗口及預報貨物資訊進出口系統建置與上線，提供B2G、G2G及N2N申辦、查詢、會辦與資料交換等通關便利服務平臺，實施預報貨物作業機制，創新關務管理資訊環境，每年約節省政府經費7億2,000萬元及減少業者成本8億6,000萬元，大幅提升政府整體服務效能及國家經貿競爭力。

105年起，配合行政院雲端運算發展方案，推動「關務服務資源整合計畫」，旨在於106至108年間，建置關務雲端運算平台，發展跨機關車輛資訊整合服務，進行大數據先導作業，並推動智慧化保稅電子申辦及查核服務。

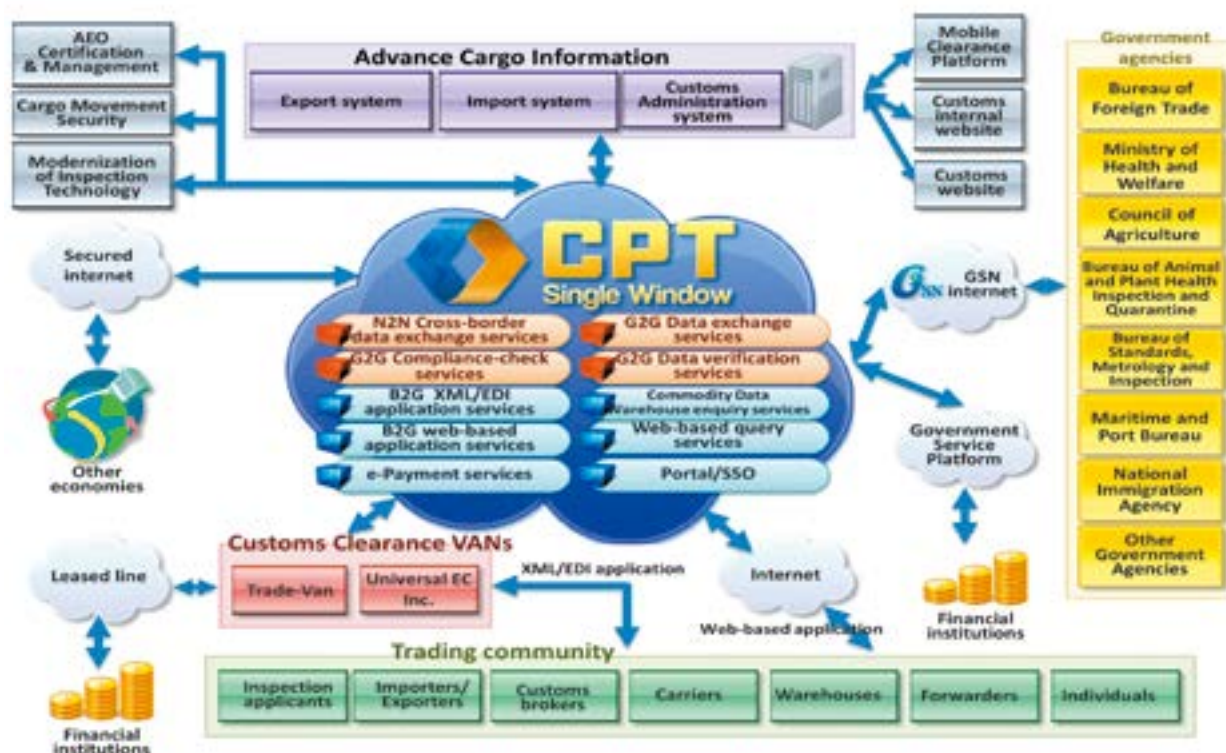

In line with the e-government policy, the Customs has fully implemented the automated clearance system for air and sea cargo since 1995, which has significantly improved the efficiency and effectiveness of cargo clearance. Furthermore, in accordance with the "Challenge 2008 National Development Plan," the Customs has rebuilt the information services since 2002, including the establishment of Customs electronic gateways, web-based applications, an e-Payment System, remote backup services on the automated clearance system, and the mobile clearance platform. All these systems not only raise the efficiency of cargo clearance, but also shape a high-quality clearance environment with year-round non-stop convenient services.

Since 2009, under the "Ubiquitous Economy and Trade Network Plan," Customs-Port-Trade Single Window System and Advanced Cargo Information Import/Export System have been implemented in 2013 and 2015 respectively, aiming to provide B2G, G2G, and N2N services on cargo clearance (e.g. application, query, compliance-check, and data exchange service platforms), and to introduce advance filing rules so as to establish an innovative IT environment for Customs management, which saves government budget by about NT\$720 million per year as well as reduces trade cost by about NT\$860 million per year for the private sector, so as to greatly enhance the overall effectiveness of government services and national economic competitiveness.

Since 2016, in light of the Cloud Computing Development Program of Executive Yuan, the Customs has promoted the "Integration of IT Resources of Customs Services" program, aiming to implement Customs Cloud Computing platform, to develop interagency information integration service of import vehicles, conduct Big Data pilot project, and promote intelligent electronic declaration and auditing services for bonded goods from 2017 to 2019.

執行其他關務相關法規業務

Enforcement of Customs-Related Laws and Regulations

海關執行其他關務相關法規業務可分為三類，一、關稅以外稅費之徵收：包括營業稅、貨物稅、菸酒稅、特種貨物及勞務稅、菸品健康福利捐及推廣貿易服務費；二、協助國內其他主管機關執行輸入或輸出管理規定：包括貨品輸出入檢驗、檢疫、大陸物品輸入管理，及對限制輸入或輸出貨品之進出口驗憑輸入或輸出許可文件放行；三、執行洗錢防制物品業務：包括查核旅客入出境攜帶之新臺幣、外幣、人民幣及黃金等數量是否符合主管機關之規定。

The Customs is commissioned to enforce other Customs-related laws and regulations. These extra functions are grouped into three categories. The first category concerns the collection of business tax (VAT), commodity tax, tobacco and alcohol tax, specifically selected goods and services tax, health and welfare surcharge of tobacco products and trade promotion service fee. The second category deals with the enforcement of additional import/export controls on behalf of other competent authorities, including the inspection and quarantine of import/export goods, the management of goods imported from China, as well as verification of import/export permits, certificates or approval letters before the release of goods subject to import or export restriction. The third category relates to money laundering control over national and foreign currencies, such as checking the national or foreign banknotes, RMB and gold carried by inbound/outbound passengers to ensure that they are compliant with the limitation.

海關博物館

Customs Museum

關務署為傳承海關歷史，讓民眾瞭解海關，於臺北市塔城街13號海關大樓1、2樓設立海關博物館，為我國行政機關設立之首座博物館，亦為全世界少數海關博物館之一。

館內設有通關作業、查緝走私、海務燈塔、海關文物及國際關務等5個展示區。以實物、模型、圖案或文字等展示我國海關輝煌歷史、各關歷年緝獲之珍貴私貨及世界主要國家之海關制服等。

海關博物館於上班時間接受預約，免費開放民眾參觀，發揮公務行銷海關之功能。開放參觀時，關務署均安排專人導覽及解說。預約電話：(02)25505500轉2212。

In order to keep the heritage of Customs' glorious tradition and acquaint the public with Customs service, the Customs Administration established the Customs Museum on the first and second floors of the Customs Building. It is not only the first museum established by a government administrative agency in the R.O.C., but also one of the few Customs museums in the world.

The museum comprises five exhibition sections, covering Customs Procedure, Preventive Operation, Marine Lighthouse, Customs Historic Articles and International Customs Cooperation. In addition to real objects, models, charts, and bilingual descriptions depicting the brilliant history of the R.O.C. Customs, some invaluable articles seized by regional Customs offices and various uniforms provided by major Customs Administrations worldwide are also features on display.

The Museum is open to the general public free of charge from 9 a.m. to 5 p.m. Government agencies, schools and other organizations may arrange a visit on weekdays by applying in advance during office hours. Guided tour will be provided. For more information, please contact: (02)25505500 ext. 2212.

措施

建構便捷通關環境

Initiatives to Create a Facilitated Clearance Environment

■ 實施T6海空聯運轉口無紙化作業

自106年7月7日公告實施T6海空聯運轉口無紙化作業，海關對於非屬押運或查驗之T6轉口櫃裝貨物，且運往站為桃園機場或高雄機場者，得免列印T6書面准單。估計約95%以上該類案件，得免列印轉運申請書及准單，除緩解運輸業與報關業者大量人力負擔及減少紙張浪費外，對加速T6轉口案件之通關速度，亦可收立竿見影之效。

■ The paperless operation for the transshipment of T6 sea-air combined Transport Cargoes is implemented

The paperless operation for the transshipment of T6 sea-air combined transport cargoes has been carried out since July 7, 2017. T6 transshipment containerized cargoes, which are not determined to be escorted or examined and which are destined for Taoyuan Airport or Kaohsiung Airport, may be exempted from printing T6 transit applications and permits. Owing to this new Customs measures, 95% of the aforementioned cases are exempted from printing transit applications and permits. Thus, the cost of labor and paper is saved and the T6 transshipment clearance is expedited.

■ 與簽審機關試辦進口機放貨物共同查驗

自106年12月11日起，海關與簽審機關（行政院農委會動植物防疫檢疫局及衛生福利部食品藥物管理署）試辦進口機放貨物共同查驗，將可減少重複開箱，節省報關（驗）業者多次往返待驗區耗費之時間及人力。

■ Implemented common border crossings examination with licensing agencies whereby the import goods will be examined and released alongside the airplane

Since December 11, 2017, Customs and licensing agencies (including BAPHIQ “Bureau of Animal and Plant Health Inspection and Quarantine, Council of Agriculture, Executive Yuan” and FDA “Food and Drug Administration, Ministry of Health and Welfare”) have implemented common border crossings examination of the import goods which will be examined and released alongside the airplane. The innovative measures will lower the frequency of reopening the cases and save the time and labor of Customs brokers, inspection and quarantine brokers to move back and forth through the inspection area.

■ 小額進口貨樣以簡易申報 免稅進口

自106年9月7日起開放國內業者進口小額貨樣，其整份報單完稅價格在新臺幣3千元以下者，得以簡易申報單辦理通關，提供小額貨樣簡易、快速及低成本通關環境，以提升我國產業國際競爭力。

■ Low-value and duty-free imported commercial samples apply to simplified declaration procedures

For the purpose of building a simplified, speedy, and low-cost Customs clearance environment to enhance the international competitiveness of domestic industries, the low-value and duty-free imported commercial samples whose aggregate value of declaration is under NT\$3,000 have been allowed to apply to simplified declaration procedures since September 7, 2017.

■ 推動優質企業（AEO）相互承認

106年10月11日關務署與印度簽署「臺印度優質企業（AEO）相互承認行動計畫」，該行動計畫是我國推動新南向政策以來，簽署的第一個行動計畫，雙方海關將依行動計畫循序漸進推動臺印度AEO相互承認作業。

■ Promotion of Mutual Recognition of AEO

“Action Plan between Taipei Economic and Cultural Center in India and India-Taipei Association in Taipei regarding the Arrangement for Mutual Recognition of the Respective Authorized Economic Operator Programmers” was signed on October 11, 2017. For Taiwan, this is the first Action Plan signed with one of its New Southbound Policy partners since implementation of the policy. Taiwan Customs and Indian Customs will promote the AEO mutual recognition step by step based on the Action Plan.

■ 推動自由貿易港區貨物郵遞出口

106年12月28日公布實施「自由貿易港區貨物郵遞出口作業要點」，開放自由貿易港區貨物得交中華郵政股份有限公司收寄，以郵遞方式輸往國外，提供跨境電商友善關務環境，鼓勵自由貿易港區發展國際物流中轉倉庫。

■ 修正發布「通關網路經營許可及管理辦法」

增訂經營通關網路財務能力條件並納入相關財務能力衡量指標，透過法令鬆綁，減輕業者遵法成本，精進對通關網路業者監督與管理。

■ Mechanism for Delivering Free Trade Zone Export Cargos through Postal Service

The “Operation Directions of Postal Export in Free Trade Zones” was promulgated on December 28, 2017, to allow the free-trade-zone enterprises to deliver their export goods by Chunghwa Post Co. service. The initiative aims to provide a more friendly Customs clearance environment for cross border e-Commerce operators and to promote the development of transshipment for warehouses in Free Trade Zones.

■ Amended the “Regulations on Operating Permit and Administration for Customs Clearance Network”

Customs revised and augmented provisions of conditions of financial ability of operating Customs Clearance Network, and the evaluation indicators of related financial ability. By relaxing regulations, the compliance cost of operators will be reduced, and the management of operators of Customs Clearance Network will be improved.

■ 精進關港貿單一窗口服務功能

擴大機關間資料交換服務並強化業者線上申辦及查詢服務；增加與能源局、環保署、經濟部加工出口區管理局、財政資訊中心、警政署、國庫署及勞動部等44項交換服務；增加9項線上申辦及7項查詢服務。促進資訊即時交換與共用分享並提供業者多元便捷服務。

■ Advanced the effectiveness of the CPT Single Window services

Expand information exchange services between government agencies, enhance online application and query services for the trading community; forty-four information exchange services have been increased between the Customs and “Bureau of Energy”, “Export Processing Zone Administration, Ministry of Economic Affairs”, “Fiscal Information Agency”, “National Treasury Administration”, “National Police Agency”, “Environmental Protection Administration”, and “Ministry of Labor”; nine online applications and seven query services have been added. By doing so, Customs promote interagency real-time information sharing and offer more convenient services for traders.

改進關稅稽徵業務

Improvements in Duty Collection

■ 修正海關進口稅則

1. 106年11月22日修正公布「海關進口稅則」部分稅則，主要係為強化國內太陽光電產業供應鏈，發展太陽光電能源；並為解決海關實務執行困難，減少徵納雙方爭議，增修部分稅則貨名；執行我國與巴拉圭共和國(臺巴)經濟合作協定我方關稅減讓承諾；配合產業發展需要，調降部分貨品關稅及增修部分稅則貨名。
2. 106年12月27日修正公布「海關進口稅則」部分稅則，係為履行第2屆臺薩(薩爾瓦多)宏(宏都拉斯)自由貿易協定(FTA)執行委員會「臺、薩共同簽署我方之關稅減讓承諾，調整薩國輸臺部分貨品關稅及配額數量。

■ Revision of the Customs Import Tariff

1. “Customs Import Tariff” was amended on November 22, 2017, so as to strengthen domestic photovoltaic industry supply chain to ensure energy development, amend the description of goods of certain tariffs to resolve difficulties of customs practice, as well as to reduce disputes between Customs and duty-payers. Besides, the amendment was to fulfill our concession commitment to the Agreement on Economic Cooperation between The Republic of China (Taiwan) and Republic of Paraguay and to lower import duties of certain tariff lines to cooperate with the needs of industry.
2. “Customs Import Tariff” was amended on December 27, 2017, to fulfill our concession commitment cosigned in the 2nd administrative commission of the Free Trade Agreement between the Republic of China (Taiwan), the Republic of Salvador and the Republic of Honduras, which adjusted duties and quantities of quota of certain tariffs of goods imported from Salvador to Taiwan.

■ 貨棧管理優化

海關透過擴大查驗區，改善查驗環境；建置資訊揭露看板、設置共同拆理區，改善進倉作業；增加錄影設備、建置獨立通道及加強門禁管理，以杜絕業者借理貨之名，行非理貨之實；加強宣導法紀教育，對於違規業者予以重罰。

■ 通關秩序優化

海關建置申報檢核機制，防止姓名及地址籠統申報；成立緝案專責小組，增進行政效率加速案件處理；落實法規執行，加強查核貨上黏貼發票、委任書、化整為零等違規情事。透過上述總總措施，優化快遞通關環境並嚴格打擊投機業者。

■ Optimization of Warehouse Management

Customs has endeavored to improve the cargo inspection environment by expanding inspection areas, and refine the express warehouse operations by establishing the Public Information Display and consignment grouping and sorting areas. In addition, Customs not only added video equipment and established independent corridors, but also strengthened the entry access control management, so as to deter the businesses from engaging in irregularities in the name of tally. Furthermore, the outreach campaigns on relevant laws and regulations have been regularly held and the illegal businesses will be severely penalized.

■ Optimization of the Customs Clearance Environment

Customs has adopted a declaration verification mechanism to curb the ambiguous declaration of the names and addresses, established the Customs Anti-smuggling Case team to increase administrative efficiency and expedite the handling of cases, as well as strengthened the enforcement on the inspection of the invoices, power of attorney, and the prevention of irregularities, such as duty evasion through the breakdown of the consignments. Through the implementation of above-mentioned measures, the customs clearance environment of the express consignments will be optimized and the speculative enterprises will be sanctioned.

■ 協助辦理酒類查驗取樣

自105年1月1日起，原由國庫署委託經濟部標準檢驗局辦理之進口酒類查驗取樣作業，改由關務署基隆關於查驗貨物時一併辦理；嗣經國庫署與關務署研議精進措施，於基隆關建置進口酒類檢驗室，並自107年1月1日起各關區進口酒類查驗一般檢驗項目，均由該關檢驗室辦理檢驗，有效縮短通關時間，同時兼顧貿易便捷與民眾食用安全。

■ Assisting in the Sampling of Imported Alcoholic Beverages

Since January 1, 2016, the sampling of imported alcoholic products, which had originally been conducted by the Bureau of Standards, Metrology and Inspection (BSMI) under the authorization of the National Treasury Administration, has been transferred to the Keelung Customs, which began to conduct the sampling of imported alcohol during the cargo examination. Furthermore, since January 1, 2018, the scope of aforementioned inspection service has been extended to the imported alcohol cleared through all regional customs offices. The combined operation of sampling and examination by Customs for imported alcohol not only reduces administrative costs but also expedites Customs clearance.

有效邊境管理

Effective Border Management
